Core-CT

Task ID: 1-1
Desktop Browser & Operating System
Requirements
Due Date: 3/22/12

Agency Readiness

Complexity: Low

Level of Criticality: Critical

Resources: Agency Liaisons

Applicable Agencies: All Agencies that transact in the Core-CT system

Overview

Core-CT will be upgrading the technical PeopleTools from version 8.49.xx to 8.51.13 on 04/02/2012. This will ready the underlying technology infrastructure to facilitate the application upgrades to the all of the products contained in the Core-CT system. The application upgrades are planned for the latter part of 2012 and into 2013 to leverage the State of Connecticut investment in the Oracle/PeopleSoft ERP.

This document highlights the browsers and operating systems that are certified with the 8.51.13 release of PeopleTools from Oracle/PeopleSoft and enable you to transact in the system.
