## Pushing Back a PO to the Previous Approver

Core-

Once a purchase order has been approved by at least one person the next approver can push back the purchase order to have the previous approver reconsider the approval. **Pushback** is used to request the previous approver to take action as opposed to **Deny** which sends the PO back to the buyer for action. **Approval Comments** are required on **Pushback**.

## Procedure

<						Ш							>

Step	Action
3.	As the second approver in the path the option to <b>Pushback</b> the PO is available.
	The <b>Pushback</b> button allows approvers to return the PO one step back to the previous approver. This differs from denying approval which would send it directly back to the buyer.
4.	Comments are required on a Pushback.
	Enter <b>Pushing back until after our meeting</b> into the <b>Approval Comments</b> field.
5.	Click the <b>Pushback</b> button.
	Pushback
