

Kronos Scheduler: Staffing Widget Guide V8.1

Purpose

The Staff Management widget gives you quick access to your daily staffing plan so that you can make adjustments to your schedule when unforeseen events occur, such as when an employee calls in sick, or when an unplanned event requires extra staff (or less staff) during a scheduled time period.

The Staff Management widget allows you to operate optimally across departments or units with your available budget and staffing resources. *Note, however, that it is a tool for daily operations, and it does not take the place of the Schedule Planner or the Schedule widget.*

The staff management process, involves:

- Importing or manually entering external data (planned workload, budget data, etc.)
- Verifying shift fidelity (time-off requests, sick calls, etc.)
- Adjusting staff to new demands based on the above factors
- Repeating the process as necessary, often several times a day

The locations and jobs that you can select are determined by the locations and jobs in your organizational group.

The Staff Management widget reflects changes to the schedule that are made, for example, in the Schedule Planner or the Schedule widget. Changes made to shifts in the Staff Management widget, are reflected in the schedule, as well. Use Refresh to ensure that you are seeing the most up-to-date information

Kronos Scheduler: Staffing Widget Guide V8.1

Special Notes:

Features

- Create, edit or delete shift segments
- Add, edit or delete breaks from Break Action Menu

Gaps

- Staff Management Widget does not use any of the existing system settings or Coverage Counting settings when calculating Planned, Scheduled numbers and Volume.
- All Day ignores Day Divide information and calculates from Midnight to Midnight.
- Cannot delete ALL segments from a shift – you must have at least one non break segment that remains in the shift.
- Cannot make changes to a locked shift/day

Areas of Staff Management Widget

Summary View

The screenshot shows the 'CT Staffing Widget' interface. At the top, there is a header bar with the title 'CT Staffing Widget', a 'Loaded: 8:14PM' indicator, a date selector set to 'Tomorrow', a location dropdown set to 'Solnet South', and an 'Edit' button. Below the header are several action buttons: 'Select All', 'Open Selected', 'Time Sp...', and 'Jobs'. A 'Refresh' button is located on the right side. The main content is a table with the following columns: Name, Undercoverage, Overcoverage, Planned, Scheduled, Variance, and Volume. The table contains several rows of data, including 'Sachem', 'Recreation', 'Quinnipac', 'Passaic', 'PRTF OPS Office', and 'One'. Red callouts are placed over the interface: one pointing to the 'Name' column header labeled 'Location', another pointing to the 'Planned' column header labeled 'Workload plan', and a third pointing to the 'Volume' column header labeled 'Census'.

	Name	Undercoverage	Overcoverage	Planned	Scheduled	Variance	Volume
<input type="checkbox"/>	Sachem	0	0	0	0		0
<input type="checkbox"/>	Sachem	↓ 4	0	4	0		0
<input type="checkbox"/>	Recreation	N/A	N/A	N/A	N/A		N/A
<input type="checkbox"/>	Quinnipac	0	0	0	0		0
<input type="checkbox"/>	Passaic	0	0	0	0		0
<input type="checkbox"/>	Passaic	0	0	0	0		0
<input type="checkbox"/>	PRTF OPS Office	N/A	N/A	N/A	N/A		N/A
<input type="checkbox"/>	One	N/A	N/A	N/A	N/A		N/A

Select the Location(s) that you want to view

The Summary View helps you identify at a glance which units and departments that you work with have staffing issues. Within the grid in the Summary View, you can sort any of the columns to display the data in a way that is most useful for you. Click a column header to sort the values in ascending order; click the header again to sort in descending order.

Date to display

You can select Today, Tomorrow, or Yesterday as the date to display.

The Employee Pool is a list of employees who are not scheduled to work in the selected context and do not have pay codes in the selected context. Their primary job or a job in their transfer set matches the selected job and selected location in the context.

The Employee Pool includes all the people from the manager's/Scheduler's organizational group. Hover your mouse over an employee name to see a tooltip with job and shift details, and rule violations, if any.

Kronos Scheduler: Staffing Widget Guide V8.1

Steps to Employee to shift Assignment		Description
1	From the Home Page, click the Plus "+" next to the My Information Tab. Next select <i>Manage My Department</i>	
2	From the Related items list, click a CT Staffing Widget.	
3	In the Location Show drop-down list, select a department from the Organization Map which will display employees for you to view. In the screen shot used a Location Query that contains all Caroline or Solnit site.	
4	In the Time Period drop down list, select a specific Yesterday, Today, Tomorrow.	

Kronos Scheduler: Staffing Widget Guide V8.1

5 Refresh Often

Each row for a location contains the last name, first name, and job (in the unit) for the first segment of the selected time span.

Hover the cursor over the employee name to see a tooltip with the job details, and shift or zone time details, for the employee. When there is a long list of employees in a location, you can use the scroll bar to scroll through the entire list. Pay codes **Green** type indicates a pay code. Pay codes show only for employees for whom this is the primary location.

The screenshot displays the Kronos Scheduler interface. At the top, there are navigation icons for Quick Actions, Available Employees, Sort, Time Span, Jobs, Shifts, Comfortable View, and Summary. Below these is a 'Shifts' dropdown menu set to 'Coverage Setting'. The main area is divided into two sections: 'Available Employees [27]' and 'Sachem'. The 'Available Employees' table has columns for Name, Job, and Schedule. The 'Sachem' section shows a summary row with 4 employees, 0 shifts, and 4 PLN. Below this are several rows for 'Open Shift' with job code CSW and various time spans (e.g., 7:00AM - 3:30... [2], 7:00AM - 11:00AM, 11:30AM - 3:30PM, 7:00AM - 3:30... [2], 7:00AM - 3:30... [2], 2:45PM - 11:1... [2]). A second section for 'CMCU' shows a summary row with 1.15 employees, 0 shifts, and 1.15 PLN, followed by two rows for 'Open Shift' with job code AA and time spans 6:30AM - 3:00... [2] and 3:00PM - 5:00... [2].

The screenshot shows a tooltip window titled 'Transfer template'. It has tabs for 'Jobs' (selected) and 'Shifts'. The 'Jobs' tab shows 'Coverage Setting' and a tooltip for 'Primary job: ./DCF-DCF91000/Solnit S/Custody/Building 8/Manhasset/CSW'. Below this is a table with columns for Name, Job, and Schedule. The table contains the following rows:

Name	Job	Schedule
[Redacted]	CSW	
[Redacted]	CSWLEAD	2:45PM - 1...
[Redacted]	CSWLEAD	2:45PM - 1...
[Redacted]	CSW	Vacation

6	<p>To fill an open shift with an employee from the Employee Pool, select the employee in the pool and drag the employee to the open shift</p>	<p>The screenshot illustrates the workflow for filling an open shift. It shows a shift grid with an 'Open Shift' (7:00AM - 3:30PM) highlighted in red. Below the grid is a toolbar with icons for 'Quick Actions', 'Available Employees', 'Sort', 'Time Span', 'Jobs', and 'Shifts'. A pop-up window titled 'Available Employees [27]' is shown, listing employees with columns for 'Name', 'Job', and 'Schedule'. The 'CSW' employee is highlighted in blue, indicating it is being selected for the open shift.</p>
