

Course Description: This STARS Basic Simple Start provides an introduction to the fundamental features and functions of STARS, utilizing Oracle Business Intelligence Enterprise Edition (OBIEE). Participants will initiate their learning journey by constructing basic analyses for inclusion in dashboards, with the complexity increasing as the course advances. The course covers essential steps in creating analyses, along with additional features such as filtering, sorting, saving, exporting, and configuring column properties.

1) Select "Subject"

2) Select Columns and results

3) Create Filter

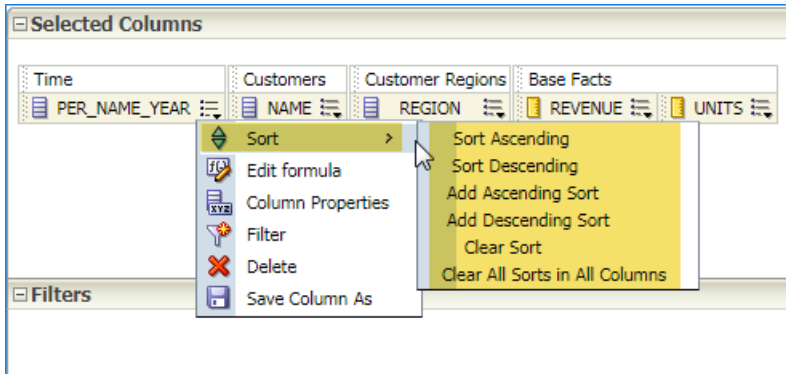

Selected Columns

Time	Customers	Customer Regions	Base Facts
