After major updates are made to the Core-CT application you should clear your scanner’s browser cache files.

1. SYMBOL TC75
Mobile Device
2. On the Home Screen, touch (All Apps Icon) located at the bottom of the screen.
3. Find the Settings Application Icon and Tap to access (swipe left or right to view all installed Apps).
4. Under Settings, select the Apps Icon
5. Scroll/Swipe to the Left (ALL) to find the Browser Icon.

6. Select the Icon

Note: If you are using the Chrome Browser, search for that Icon instead.
Clearing Browser Cache on Symbol TC75 Scanner

Created on June 6, 2018
