

# Clearing Browser Cache

After major updates are made to the Core-CT application you should clear your browser's cache files.

The process for clearing browser cache is different depending on the type of browser you are using. You can use Google to search for instructions for clearing cache for your specific browser or use the below guide.

<b>Microsoft Edge</b>	<p>Open the Settings Menu. In the top right corner, you'll see three dots in a horizontal line. ...</p> <p>Locate Clearing Browsing Data. ...</p> <p>Select Settings</p> <p>Select Privacy, search, and services</p> <p>Under Clear browsing data</p> <p>Click Choose What to Clear.</p> <p>Make sure the first 3 boxes are checked.</p> <p>Click Clear.</p> <p>Close and Restart Edge</p>	 <p>The screenshot shows the 'Clear browsing data' settings menu in Microsoft Edge. It features a list of data types with checkboxes: 'Browsing history' (checked), 'Cookies and saved website data' (checked), 'Cached data and files' (checked), 'Download history' (unchecked), 'Form data' (unchecked), and 'Passwords' (unchecked). A 'Show more' dropdown arrow is visible below the list. At the bottom of the menu is a prominent yellow 'Clear' button.</p>  <p>The screenshot shows the 'Clear browsing data' dialog box. It has a title bar with a close button (X). Below the title is a 'Time range' dropdown menu set to 'All time'. The main content area contains a list of data types with checkboxes and descriptions: 'Browsing history' (checked, 1 item), 'Download history' (unchecked, 169 items), 'Cookies and other site data' (checked, From 8 sites), and 'Cached images and files' (checked, Frees up less than 8.2 MB). A vertical scrollbar is on the right side of the list.</p>
-----------------------	--	--

<p><b>Mozilla Firefox</b></p>	<p>Click the menu button  and choose <b>Settings</b>.</p> <p>Select the <b>“Privacy &amp; Security”</b> panel.</p> <p>In the <b>Cookies and Site Data Section</b>, click <b>Clear Data...</b></p> <p>Confirm that all check boxes are selected.</p> <p>Click <b>Clear</b>.</p> <p>Click <b>Clear Now</b> to confirm.</p> <p>Close and restart Firefox.</p>	 <p>The screenshot shows the 'Clear Data' dialog box in Firefox. It contains the following text: 'Clearing all cookies and site data stored by Firefox may sign you out of websites and remove offline web content. Clearing cache data will not affect your logins.' Below this, there are two checked items: 'Cookies and Site Data (39.1 MB)' with the subtext 'You may get signed out of websites if cleared', and 'Cached Web Content (1.0 GB)' with the subtext 'Will require websites to reload images and data'. At the bottom right, there are 'Cancel' and 'Clear' buttons.</p>
<p><b>Google Chrome</b></p>	<p>Click the More button  and choose <b>More tools</b>→<b>Clear browsing data...</b></p> <p>Confirm that all check boxes are selected.</p> <p>Click <b>Clear data</b>.</p> <p>Close and restart Chrome.</p>	 <p>The screenshot shows the 'Clear browsing data' dialog box in Google Chrome. It has tabs for 'Basic' and 'Advanced'. The 'Time range' is set to 'All time'. There are three checked items: 'Browsing history' (with subtext 'Clears history and autocompletions in the address bar.'), 'Cookies and other site data' (with subtext 'Signs you out of most sites.'), and 'Cached images and files' (with subtext 'Frees up 283 MB. Some sites may load more slowly on your next visit.'). At the bottom right, there are 'Cancel' and 'Clear data' buttons.</p>
